

## Conference and Workshop

# Climate Impacts on Glaciers and Biosphere in Fuego-Patagonia

July 14th to July 19th, Berlin

The [GABY-VASA](#) project, a joint project of University of Magallanes (Punta Arenas), the Instituto Antártico Chileno (INACH, Chile), and in Germany the Humboldt-Universität zu Berlin, the Universität Erlangen-Nürnberg and RWTH Aachen University on dendrochronology, climatology and glaciology in Southern Patagonia and the Cordillera Darwin is pleased to invite you to a conference and workshop to Berlin from 15th to 19th July 2017.

The official program will start with a reception on Friday, July 14th in the evening and follow-up get-together and organized visiting program in Berlin and its surrounding on the weekend July 15th/16th, 2017. We will show you some 'real' Berlin sites, visit the famous Telegrafenberg in Potsdam with its world-renowned locations for science and show you locations of recent glacial history in the area.

On Monday, 17th and Tuesday, 18th July, 2017, an open science meeting will be held, open to everybody, with potentially sessions on

- dendrochronology
- dendro-ecology,
- climate variability and climate history
- climate change
- biological responses to climate forcing
- glaciology, glacier change
- glacio-isotasy and related topics in earth sciences

as well as other related topics.

The regional focus will be Patagonia, Tierra del Fuego and adjacent islands, the sub-Antarctic islands and the Antarctic Peninsula. There will be ample possibilities to discuss contributions and to elaborate on open scientific issues as well as new project ideas.

There is no conference fee but you must be prepared to individually cover all of your travel, lodging and catering expenses.

Participants from outside the GABY-VASA project are asked for a contribution of 25 EUR for the events of the get-together on Friday night (July 15<sup>th</sup>) and on the weekend of July 16<sup>th</sup> and 17<sup>th</sup>, 2017. In this case you are asked to pay your contribution cash, on-site.

On Wednesday, July 19<sup>th</sup>, 2017, there will be an internal workshop of the GABY-VASA group with participants from Chile and Germany.

For [abstract submission](#) and [registration](#) to the workshop please use the linked PDF document and send it as an attachment to [Christoph Schneider](#). If you wish to present either a poster or an oral contribution during the open science meeting please also submit the title including the list of presenting/first author and co-authors accompanied by an abstract with no more than 250 words as a MS Word or PDF document. We prefer you use the prepared **PDF formsheet** for submitting your abstract.

We are looking forward to meeting you at Humboldt-Universität zu Berlin in July 2017.

### **Important deadlines for abstract submission & registration:**

- The deadline for abstracts is March 31<sup>th</sup>, 2017.  
[Abstract submission template](#) (please send to [Christoph Schneider](#) as an attachment to an e-mail) - alternatively just send plain text as a MS Word file via e-mail to [Christoph Schneider](#)
- Information of authors regarding acceptance of abstracts for oral or poster presentation: April, 30<sup>th</sup>, 2017.
- The latest registration to the workshop is May, 15<sup>th</sup>, 2017  
[Registration template](#) (please send to [Christoph Schneider](#) as an attachment to an e-mail) - alternatively just send an e-mail to [Christoph Schneider](#)

### **Scientific Committee:**

- Matthias Braun, Univ. Erlangen-Nürnberg
- Gino Casassa, Univ. Magallanes, Punta Arenas
- Ricardo Jaña, INACH, Punta Arenas
- Juan Carlos Aravena, Univ. Magallanes, Punta Arenas
- Christoph Schneider, Humboldt-Universität zu Berlin

### **Local Organising Committee:**

- Christoph Schneider, Humboldt-Universität zu Berlin
- David Steger, Humboldt-Universität zu Berlin
- Mahdi Motagh, Geoforschungszentrum Potsdam

The GABY-VASA Conference and Workshop on Climate Impacts on Glaciers and Biosphere in Fuego-Patagonia, hosted at Humboldt-Universität zu Berlin, is co-funded by and listed with the [International Glaciological Society](#) and with [Geo.X](#), the geo-science alliance in Berlin and Brandenburg and.
