

Travel support for young scientists

based in the United States.

We will be able to fund airfare and registration for a limited number of early-career researchers (graduate students, postdocs, recent hires in permanent positions). Awards of full or partial scholarships will be given on a competitive basis.

We are especially interested in providing support to individuals from under-represented populations in the earth sciences, including but not limited to diverse cultural, gender, and socioeconomic backgrounds. for IGS symposium on 'Timescales, Processes and Glacier Dynamics' to be held in Hotel Lafayette, Buffalo, NY, USA during 3–8 June 2018,

Application deadline:

12 April 2018 (23:59 GMT)

Awards announced:

19 April 2018

Those submitting an application in response to this call for travel seed funding may request for a short extension for their registration before the late penalty is applied.
