

2022 Awards by the International Glaciological Society

Nominations for the International Glaciological Society (IGS) Awards for 2022 are due 15 Nov 2022. The awards include:

- The **Seligman Crystal** (awarded to a single person or a collaborative group/team that has made exceptional scientific contributions to glaciology, defined as any snow and/or ice studies)
- The **Richardson Medal** (awarded to a single person or a collaborative group/team that has provided outstanding service to the International Glaciological Society and/or to the field of glaciology)
- **Honorary Membership** (recognizes individuals who have made outstanding contributions to the field of glaciology at a national or regional level)
- **Early Career Scientist Award** (recognizes significant scientific and/or community contributions to Glaciology by an ECS)

Details of these awards, including eligibility criteria and nomination package requirements are available at <https://www.igsoc.org/awards/>. Current members of the Awards Committee are listed at <https://www.igsoc.org/about/organisation/awards-committee>.

All IGS nominations are expected to provide evidence of high moral and ethical standards along with a commitment to IGS core values within the glaciological and wider communities.

Nominations can be made at any time, but the close off date for the 2022 awards is 15 **Nov 2022**. Nomination packages should be submitted using a single nomination file using [this](https://forms.gle/NzAooB4d5xApYwtLA) google form (<https://forms.gle/NzAooB4d5xApYwtLA>). If nominations fail to upload, nominations can be sent to the committee chair (jbassis@umich.edu with cc to magnus@igsoc.org) using the subject line "IGS 2022 Awards".

We anticipate that the result of successful 2022 nominations will be announced in December.

We look forward to receiving your nominations.
